# Design Drill-Down Introduction

David Turanski

dturansk@eos.hitc.com
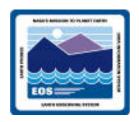

30 October 1995

Overview

- **32 presentations of selected design topics**

- **Each presentation between 20 and 40 minutes**

- **Drill-downs grouped into sessions which follow the main scenario presentations**

  - **3 push drill-down sessions**

  - **3 pull drill-down sessions**

  - **2 push+pull drill-down sessions**

- **Selected topics are not intended to be exhaustive in breadth or depth**

  - **Refer to IDR Documentation for complete coverage**

- **Topics are presented at PDR level of detail**

Presentation Approach

Selected Topics

- **New Release B Features**

- **Architectural Infrastructure**

- **Common components**

- **"Hot" topics from ECS community**

Presentation Format

- **Explicitly tied to a single scenario where appropriate**
  - **Often relates to more than one**

- **Provide a view of how the design supports the scenario**

- **Address extensibility, evolvability, scalability features**

- **Provide status of preliminary design and next steps for CDR**
